

Remodel the Datacenter

Dominic Lucia, Channel Solutions Engineer

Leigh-Anne Levinski, Channel Account Manager

27 January 2022

“Legacy” Apps

Modern Apps

One Aspect of **Adaptive applications** – Modern App Delivery

1

Simplify traditional app delivery for multi-cloud

BIG-IP

Legacy Monolithic Apps

2

Enable modern app delivery at scale

Modern Apps

3

Secure every app anywhere

App Abuse and Fraud

4

Unlock the value of app insights

Loyal Customers

Edge 2.0 Platform

Volterra

Distributed Cloud App Services

Multi-cloud application security and delivery technologies

Remodel the Datacenter: Five-Session Agenda

Upcoming Topics & Sessions

Session 1: Big blocks to little blocks (**February 27th**)

- The journey from legacy apps built with “large blocks” to microservices built with “small blocks”

Session 2: Installing the Security System (**March 10th**)

- How do we keep all these fancy new systems secure?

• Session 3: Volterra- Making the Move Easy (**March 31st**)

- Moving from the old to the new is never easy, see how Volterra can facilitate cloud migrations and multicloud architecture

• Session 4: Services (**April 21st**)

- How F5 drives your professional services

• GRAND FINALE: Tech Fair (Virtual or In-person)

Checkpoint 1

- Review SE All Stars program and answer questions

Bonus Checkpoint task!

- Register for Agility 2022
